

E-CROSSTRAIL SL 29

Ultra Robust

The 30mm aluminium rim and patented FORE & PFP technologies make the e-Crosstrail SL an indestructible e-mtb wheel.

Improved responsiveness

With INFINITY hubs specially reinforced for e-bike use, power transfer is ultra-efficient and the wheel is even more responsive.

Super Versatile

The lightness of its rim and its spoking make the e-Crosstrail SL one of the most versatile e-bike wheels in its category.
